

Pacific Interior Accent

INTERIOR

Pacific Interior Accent

MAKE YOUR OWN MARK on Pacific Interior

Pacific Interior is one of the most popular ranges of interior signs from Modulex, and with good reason. The curved front, the flexibility and the consistent quality of the design, construction and choice of materials create an impression that is quite simply in a class of its own.

Pacific Interior Accent gives you the opportunity to make your own individual mark on your Pacific signs.

3D profiles

The Accent range comprises 3 mm profiles fitted between the sign panels. The profiles are up to 15 mm deeper than the panel itself, thus highlighting the 3D perception of the sign. The Accent profiles are also available in a range of colours thus adding a new dimension to the signs, either as an eye-catching contrast or in an informative function. For example, you can use colour codes for specific areas or destinations within a building.

Top and bottom

Over and above the intermediate profile, you can order special profiles for the top and bottom of the signs.

This makes it possible to close the Pacific signs at the top and bottom, adding an extra visual and qualitative dimension to their appearance.

Give free rein to your creativity

The standard Pacific Interior Accent range features intermediate profiles and tops/bottoms for all panel sizes. However, you can also order profiles designed to bring your individual ideas to life.

Pacific Interior Accent

Anyone can produce a sign

Do not think of Modulex as simply a sign manufacturer. At the end of the day, our products are first and foremost a means rather than an end in themselves.

Rather, think of us as leading experts in Wayfinding and Information Management. As a partner whose deep insight into user behaviour enables us to create efficient sign strategies for complex environments.

In other words, choosing Modulex means choosing more than just signs with a unique design and unrivalled quality. It means choosing solutions.

Leading the way since 1963

Modulex is one of the leading suppliers of Wayfinding and Information Management in the form of architectural sign solutions. The company was founded in 1963 as part of the LEGO Group, and we operate today in more than 35 countries. Thanks to our global presence, we have the capacity to deliver sign solutions that ensure brand consistency across continents. At the same time, we have a finely tuned logistical setup and extensive project experience which ensure that we can complete even the most complex delivery without problems – and on time.
